### All-Stars Project of Chicago Honors Ron Seals

On June 4, Ron Seals, NGE Director of Support Services, was honored by The All Stars Project (ASP) of Chicago as one of the New Leaders of Afterschool Development. We are proud to continue our support of the All Stars Project of Chicago. The firm has had a close connection with ASP of Chicago from the very beginning—the chapter was founded in 2007 under the direction of former Neal Gerber Eisenberg employee David Cherry, who currently serves as City Leader of the ASP of Chicago. In fact, David Cherry worked for Ron Seals during his time at NGE.

The ASP is a national nonprofit organization that provides innovative, performance-based afterschool development opportunities to inner-city youth in partnership with caring adults. In Chicago, the program directs its efforts toward young people on the city's south and west sides.
