

Financing

Borrowers and lenders nationwide rely on us to structure, negotiate and close their complex real estate finance transactions. We represent borrowers in the acquisition, financing and refinancing of commercial properties across the country.

We are routinely engaged by lenders as outside counsel because of our ability to handle nearly all real estate finance transactions—from complex, multilayered, securitized real estate mortgage transactions to standard mortgage loans—in which experience, bench strength and organizational skills are critically important. We also routinely act as lead counsel with regards to loans relating to property in Illinois.
