NGE continues commitment to ABA's Well-Being Pledge

For the sixth straight year, NGE has committed to the American Bar Association's Well-Being Pledge. This pledge was launched to improve the substance use and mental health landscape of the legal profession, calling upon law firms and other legal employers to recognize the severity of substance use in legal professions and support a healthy and sustainable work environment. Through our commitment, NGE has agreed to continue to provide access to addiction and mental health resources, initiate firm programs that support all aspects of health, and partner with organizations to reduce substance use disorders and mental illness in our surrounding community.
