### 2021 Should Be a Banner Year for Biotech Startups That Make Smart Choices Early

Michael Gray, leader of NGE's Private Equity, Venture Capital & Growth Companies practice, and John Flavin, founder and CEO of Portal Innovations, recently co-authored the article "2021 Should Be a Banner Year for Biotech Startups That Make Smart Choices Early," published by TechCrunch. In the article, Michael and John share best practices for founders of biotech startups, including how to select the right investors over the "best" terms, when to pass the baton of leadership, and more.
