2025 Earth Day Newsletter

Our NGE community is proud to share our annual newsletter reflecting our commitment to this year's Earth Day global theme, **Our Power, Our Planet** with an emphasis on harnessing renewable energy to build a healthy and resilient future for communities.

Complete with tips on how to reduce energy consumption through small changes in routine, progress on our internal initiatives to reduce reliance on non-renewable energy, and an insightful conversation about how NGE client, **The Dermot Company**, does its part to make sustainable choices, we hope you enjoy our 2024 Earth Day Newsletter!
